HOW TO SUPPORT WATHI

HOW TO SUPPORT WATHI

WATHI's vision is peaceful, appeased, dignified, productive and united societies across West Africa, a West Africa open to all the regions of the African continent and to the rest of world. Our vision is a world translated into a state of mind, a transnational citizen movement and a think tank.

WATHI's conception of West Africa not only integrates the 15 member states of the Economic Community of West African States (ECOWAS), but also countries linking ECOWAS to North and Central Africa, namely Mauritania, Cameroon, and Chad.

The focus on a particular region does not imply a disinterest in the evolution of the other regions of the continent. WATHI's approach is in line with a pan-Africanist perspective, but a realistic and pragmatic pan-Africanism focused on the needs of the populations and recognizing the diversity of the countries and regions of the continent.

Citizen-based funding: in line with WATHI's vision

WATHI's philosophy is that of men and women who are committed to West Africa and Africa, who believe in the importance of defending the public interest of present and future generations, as well as in the ability of African people to create their own resources needed for collective thinking and action on crucial issues.

WATHI's resource mobilization strategy integrates private and public institutional donors (foundations, international and regional organizations, private companies), but it primarily targets citizens across Africa and the rest of the world who share its vision.

The more WATHI will rely on resources coming from your generosity, the more it will be financially independent and able to focus exclusively on its mission.

Financial transparency is a central point for WATHI. Information on WATHI's sources of funding and the allocation of these funds to the activities of the organization will be provided, on a regular basis, on the website.
